

KATIA RANCAN

STUDIO FRANCHETTI S.R.L.

<http://www.studiofranchetti.com>

Bilateral Meetings

- Wednesday 17:00 - 19:30

Description

Civil and environmental engineering company. Based on strong scientific research and on its own "software based" method, Studio Franchetti provides innovative technological solutions to inspect, monitor and assess the structural and environmental conditions from the existing single structure to entire infrastructural asset. Studio Franchetti estimates the remaining useful life (RUL), designs maintenance and refurbishment interventions, improving or adapting structural and environmental performances according to codes and regulations, with particular attention to the seismic vulnerability. The company operates since 1963 and has grown as a global network of specialized engineers who provide professional services ongoing research performed through specific collaborations with universities and research institutes. From the Italian headquarters (Vicenza) and branches in Rome (Italy), Rio de Janeiro (Brazil), Montréal and Toronto (Canada), Philadelphia (Pennsylvania), Studio Franchetti reaches out to its customers: • Public and/or private authorities holders, grantors or managers of roads, highways, railways, ports, airports, dams; • Road, highway, rail, port and airport Concessionaires; • Refineries; • Wastewater treatment plant and waste treatment plant.
