Description

EUROTIM is a family-owned company that has developed thanks to the knowledge and experience of its founders. We have acquired many years of work in the the legal, public and non-profit sector. We cooperate with experts from various specialties, in order to always be able to offer our clients best solutions. Under the framework of the legal consulting we provide contracting solutions for project management and technical advice in the early stages of the project, and often advise our clients throughout the project cycle. We work with designers, project managers, engineers, architects, experts on environment and professional business service. Our broad range of skills and knowledge allows us to provide a unique integrated approach to projects regardless of their size, complexity or geography. We use our knowledge and networks to undertake ambitious projects and make a positive influence on infrastructure, socio-economic growth, sustainable tourism and environment.
