Bilateral Meetings

- Wednesday 17:00 - 19:30

Description

Eontek, as a software development company, is working on building software solutions for companies that have issues in their business processes. We worked on creation and implementation of CRM systems in companies all around the world, ranging from 20 to 2000 users.

Our team of developers has great experience in working and building all kinds of applications and solutions. There are also people that are going to try and learn as much as possible about your company and the way you work, so they can do the analysis and give assessment of the solution that would be the best for your company needs.
